

Scavenger Hunt Worksheet

Directions:

Using your meter stick, find the following.

1. Find and draw a plant that is 1 cm long in the box provided.

2. What plant is 20 cm high?

3. Find an object that is about 50 cm high or long. What is it?

4. Name 3 plants, or garden objects that are 1 meter long:

5. How high is the tallest tomato plant?
How wide is the widest leaf?
How long is the longest bean?

6. Where are the sunflowers?

7. Once you've found them, measure and write their height here:

8. What is the tallest plant growing in the raised bed?
Estimate and write it here:

9. Use your meter stick to measure its actual height and write it here:
