

Name: _____

Community Gardens: Think Green!

Directions: Now that we have learned more about the history and benefits of community gardening, it's time to make our own propaganda posters.

1. Using the facts gathered about community gardening, come up with a catch phrase or slogan. Some examples are:

Break New Ground!
Plant an Urban Farm Garden!
Victory Garden of Tomorrow,
Grow All You Can!

2. What are some images and colors that would work well with your new catch phrase? List some here and sketch using the space provided.
